Frank Romano (absent)
Michael Vela (absent)

VISITORS

Jack Burleson, ICC
Roger Evans, Park City

Gilbert Gonzales, Murray City

MINUTES

The minutes from the June 1, 2003 meeting were approved as written.

OTHER BUSINESS

The committee discussed moving the meetings to Sandy City Hall and agreed to do so for future meetings.

REVIEW PRESENT AMENDMENTS FOR
CARBON MONOXIDE ALARMS

The committee reviewed the present amendments for carbon monoxide. The Commission asked this committee to review the present amendment to get some clarification on where the alarms need to be located, where alarms need to be verses detectors, do you need to have detectors and alarms, is it required on the switch out of gas appliances, and false alarms. Roger Evans spoke to the committee on behalf of Ron Ivie who originally proposed the amendment. Following a discussion, a motion unanimously passed to ask Ron Ivie to rewrite the

REVIEW PROPOSED AMENDMENT FOR
SECTION 1621.1.4 ARCHITECTURAL,
MECHANICAL, AND ELECTRICAL
COMPONENT SEISMIC DESIGN

amendment for clarification on location, and to resubmit it to this committee for review at the meeting in September.

Those present reviewed the proposed amendment. Roger Evans spoke to the committee on behalf of the proponent. Gilbert Gonzales spoke to the committee against the amendment. A motion was made to approve the amendment.

Following further discussion, the motion was modified to leave the amendment but to removing the words “sprinkler heads and” before the words “other penetrations”.

Following more discussion, the modified motion was modified to say “penetrations other than sprinkler heads”.

The motion was then withdrawn.

A motion unanimously passed to table the discussion on the proposed amendment until the September meeting and to ask Park City rewrite the amendment.

The meeting adjourned at 10:30.
